At the Turnbull headquarters in this city the correctness of these abstracts is questioned and not conceded. In what respect it is not stated, nor is anything given out as to what course the friends of Mr. Turnbull will take. It is evident that some protest is to be made before the district committee, that recounts in certain counties or precincts may be asked, or that an appeal to the State committee may be decided on. It seems fully well understood that the matter is not yet ended, and that it may not be ended with the action of the district committee. There are rumors of irregularities and of noncompliance with the party primary plan in certain instances, which may be brought to the attention of the committee.

Hitchcock Gets Attorney-General's Opinion on Act Regarding Newspapers.

PREPARING BLANKS

Wickersham Merely Construes, Not Touching on Measure's Constitutionality.

Washington, September 25.—Attorney-General Wickersham to-day sent to Postmaster-General Hitchcock a written opinion on certain phases of the new Federal law requiring daily and weekly newspapers and some other publications to present to the Postmaster-General semiannual sworn statements of circulation, ownership of their stocks and bonds and other information under penalty of denial of the United States mails.

of the United States mails.

The Attorney-General upholds the Postmaster - General's construction that it is immaterial whether subscriptions are individual or in bulk, and that the provision of the law covers the number of copies of a publi-

priation bill enacted at the last session of Congress.

Mr. Hitchcock inquired whether the law "shall be limited to paid individual subscriptions or shall include purchases in bulk by news agents or others for redistribution; also whether, in your opinson, the provision covers paid circulation of daily newspapers not distributed through the mails."

Attorney-General Wickersham replied categorically and definitely to those inquiries, holding that:
